

Please leave this law alone. I am now able to answer the telephone without worrying about having a salesman on the other end. There were times in the past I would shut the phone off and considered cancelling my phone service altogether. I consider it an invasion of my privacy. These salesmen do not care if you are having dinner or going through a family crisis. If I want to buy something I know where I can make my purchase. I don't need people pestering me in the privacy of my own home.

I have friends in the state of Ohio who are being harassed everyday with numerous phone calls. I do not want to go back to that.

I now have a peace of mind knowing when the phone rings that it's not a salesman.
